Instructions for Installing and Using ROKU

1 Insert Roku into an available HDMI port and set TV to that input/source. Press **Home** button on the Roku remote until the **Home** screen appears. Use the **Up/down** arrows on the remote to navigate to **Settings**. Press OK and go to **Network**.

2 Hit **OK** and navigate to **Set Up Connection.** Hit **OK**, highlight **Wireless** and hit **OK.** Choose your Wi-Fi network and sign in. Be sure you know any necessary password for your network.

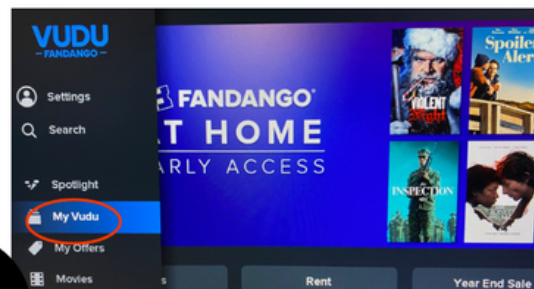

3 Press the **Home** button on the Roku remote again and press **OK** on the remote while hovering over the **Home Tab.** When the **Vudu -Fandango-** square is highlighted, press **OK** on the remote.

4 Once the **Vudu -Fandango-** app loads, hit the **Left Arrow** on the Roku remote until the menu on the left side of the screen is highlighted. Navigate to the **My Vudu** tab and hit **Ok.** Once on the **My Vudu** page, hit either **My Movies** or **My TV** at the top of the page. Once you have made your choice, hit **Ok** while hovering over the Movie/TV poster. Hit **Start** and enjoy!
